Student Volunteering Stories

Rhianna Berry with First Aid Society

As a trainer for First Aid Society I not only volunteer and teach people their First Aid at Work qualification but I also participate in duties.

I have done so many duties in the last year, as have all of our volunteers. However, the most memorable event for myself was a rough sleep out in aid of Homelessness with the Soup-runner Society. This involved the society setting up camp outside the Portland building and having a sponsored sleep out. We were there volunteering as the First Aid Society in the event that any member needed first aid during the night.

Volunteering can be such a rewarding activity. Particularly if you enjoy it!
