Why do you want to become the Faculty Rep?
This year has been great as Education Rep. Becoming Faculty Rep feels like the next logical step. I've met plenty of incredible people who work in our Faculty and I want to work with them again. I know that my abilities could really influence the change students want to make.

What are 3-5 changes that you would try to influence if you were elected?
Recently, I conducted a study on the use of Moodle for the Faculty. I found a lot! I now want to implement these changes so that we may achieve the best form we can find. This means consistency across pages, expected resources, and guides for staff on how to design their pages. There are many more facets to this plan, and I look to work hard with staff and students to achieve our goal.

There are many meetings across the Faculty that occur every day. Some of which, lack student representation. In my role, I will ensure that students are represented where ever it should be. It may seem minor, but the differences could be huge. Students know what works best for them, so they ought to be able to weigh in.

One success achieved this year as Education Rep was the reworking of the Pope Building pedestrian flow on the C Floor. This has been a huge safety issue for a long time and am glad to have worked with the other Reps to achieve this. As Faculty Rep I would continue to work with the Health and Safety group and students to identify safety concerns across the Faculty buildings.

This year I've also implemented a 'Note of Good Practice' system for students and staff to praise lecturers and other staff for the good things they do. I would love to implement this Faculty-wide. This system not only shows the lectures that we appreciate all they do, but additionally, it shows other staff what students appreciate and what they can do to improve!
Most importantly, I wish to hear student feedback. Feedback has been a great driver for change in the past and there’s no reason to stop now! I wish to streamline student’s ability to provide feedback not only to their teachers and staff, but to their Reps as well. I believe this could be implemented in many different ways and may allow students to make their voice heard, better than ever.

**What experience do you have for the role?**

Through my 2.5 years here at the University of Nottingham, I have served in many roles which can be applied. I have served on three society committees: Foundation Engineering and Physical Sciences Soc, Improv Soc, and AmeriCan Soc. I was elected once as President and twice as treasurer, respectively. Additional to this, I’ve also been twice elected as the Society Council Chairman. I’ve also been a Peer Mentor and a UCAS Ambassador for Foundation Engineering for two years as well.

These roles have become a great base for my communication and people skills. I’ve worked with many students through these roles and am a better leader because of it.

Beyond that, I’ve worked with the Students Union, outside of my elected roles, as a Brand and Insight Ambassador and the Union Council and Scrutiny Panel Facilitator.

These jobs have educated me greatly on the in and outs of the SU. I’ve built good relationships with the staff and look forward to working with them in this role. I’ve also got a good understanding of the democratic processes governing the SU; which may play a role in our policies, should it apply.

Additionally, prior to University, I served in the Scouts. Achieving the highest rank possible: Eagle. People with such a title are known for their leadership and their community skills. I am no different. I learned many different things that I hope to apply to my role as Faculty Rep.

Most importantly, my experience as Course Rep in my second year, and Education Rep in my third, means that I know the Education Network in and out. I’ve worked with the current Faculty Rep and the Education Officer to solve problems and make change. I look forward to work with the Education Reps and the Officer next year to make an even bigger difference.

**Anything else that you would like to share on why you should be elected.**

I’ve very approachable and care about the student experience. If you want further information regarding my ideas or if you disagree, I want to hear for you! These elected positions are in place to serve the students. And that’s what I’ll do.
