Duan Shiyao

Please give a short outline of your experience and what you’d bring to the Education Network if elected:

I have been the class representative from primary school to middle school and served as the monitor and study commissary in charge of the class during my college years. If I’m elected I’ll make it work better.
Sanjukta Choudhury

Please give a short outline of your experience and what you’d bring to the Education Network if elected:

I am a Postgraduate student doing a MSc in Human Resource Management and Organisation and I would like to nominate myself to be your next Postgraduate Taught Faculty Rep. Having done my undergraduate degree from this very same institution I believe that our university is one of the best institutions in the country.

Being one of the best universities in the world for social sciences, our faculty has achieved some incredible things in the past to achieve such rankings. Throughout my undergraduate degree I have been involved in various societies and the SU and have come to build a strong appreciation and knowledge around student representation. We have some of the brightest and most talented students in the country and I would be honoured to represent every one of you with the same vigour that our department has shown previously. I believe it would be a great opportunity for me to give back to the university by maintaining and further improving the experience and prospects of Postgraduate social science students.

There are several goals that I would like to achieve, apart from continuing the amazing work started by those before me. One of my top priorities as Faculty Rep would be to push for the 24/7 opening hours for at least one of the Libraries on each campus. The second thing I would like to campaign for is the recording of lectures. It is understandable that lectures aren’t recorded for the fear of students skipping lectures. However, if lectures were to be recorded and given access to those students who have attended them in person, it would be beneficial for students to go over these recording for revision purposes.
The other issue on my agenda is providing better quality individual feedback across all departments for the benefit of students' work development and progression. Moreover, most of the welfare events, like the very popular Puppy Room, are only ever organised at University Park Campus. It makes it extremely difficult for Business School, Computer Science and Education Students to attend these events since a lot of unnecessary time is consumed travelling across campuses. I would push for more welfare events to be held at Jubilee Campus. Finally, I promise to always remain approachable and open to any ideas, suggestions that you may have!
Please give a short outline of your experience and what you’d bring to the Education Network if elected:

I will try my best to give effective responses to both my peers and the staff.
