If elected to a position on the Sutton Bonington Guild, what would you like to change?

If I were elected as your guild chair, I would see to it that the excellent work of the SB Guild around campus is maintained. I hope that through communication from you, and also hard work and elbow grease on my part; that a Guild with me as chair will have a meaningful impact on the problems faced on a day to day basis. If elected I will work tirelessly to ensure that the Guild is clearly and efficiently organized to ensure that any problems raised can be dealt with as soon as possible and in a way which. In addition, I propose that the Guild be extended onto a hall by hall basis, with representatives for each part being present in each block or hall. These representatives would then report back to the main rep for that area. These representatives would be a familiar and friendly face, the increased number of representatives also increases the amount of feedback which then in turn allows the Guild to address more common problems or queries around the campus.

What experience do you have for the role?

I am able to work well in any team in which I am placed.
I have a clear and concise method of communication.
I am able to network and form connections.
I am patient and approachable, I will listen carefully and attempt to find a solution to any problem (no matter the size).
I have attended courses and workshops to further improve my leadership and organisational skills.
I am open to criticism and strive to improve in whatever I do.
Anything else that you would like to share on why you should be elected.

If you have any questions please feel free to contact me by email: styek6@nottingham.ac.uk

If elected to a position on the Sutton Bonington Guild, what would you like to change?

I would like to make first years more aware of the guild and more aware of the different roles and how they can get involved before the elections, and keep the guild interesting and exciting so people want to get involved. I want to help grow the guild so it’s as big and prominent as the main SU. I want to have more barn parties with new themes to keep people excited about guild events, I would also like more fun and interactive events such as the pub quiz and take me out to keep bringing lots of people into the barn.

What experience do you have for the role?

I have organised a number of events in the past including being involved in the organisation of prom when I was in sixth form. I was involved in the organisation of the local pantomime back home and in the running of a 2 of weekly themed nights at a local bar where I used to work. I organised a number of speakers to come to my sixth form and was in charge of accounting for my school’s annual musical.

Anything else that you would like to share on why you should be elected.

I am interested in keeping Sutton Bonington exciting and interesting by increasing the number of events we have on campus. I think we need to give people more opportunities to go to events on campus and have fun and get people more enthusiastic about living on SB. Even though we live a way out of Nottingham I think it’s important we have just as much opportunity to go out and have fun as those on the main campus, and more people will get involved the more we try to do this.

If elected to a position on the Sutton Bonington Guild, what would you like to change?

I would like to make all the sports teams more involved with each other and make SB sport more of a unit rather just than individual sports societies and teams. Maybe have more events such as the cancer netball tournament to get everyone together and an event where all the SB sports teams meet the UP sports teams/societies. I would also like to make use of the Barn area more and put on more evening events as I feel the evenings on SB can be quite quiet. Maybe designating a night to a society who’s responsibility it is to put on something small (not a huge Barn party necessarily, I know that already happens), e.g. Karaoke night. I would just like to make the SB societies more involved and included in SB’s daily lives so that they are known and supported more.

What experience do you have for the role?

I have been prefect of both my primary and secondary school and therefore understand the time and commitment such a role demands. I also captained my secondary school’s senior girl’s hockey team two years in a row (2016/2017). This opportunity gave me the skills required to communicate between coaches and students and the importance of keeping communication strong, I also gained the skills to motivate a team and think on the spot and under pressure in order to make a decision that would affect a group of people. I am in the SB mixed hockey and tennis society and so understand how sports societies are run on campus. Finally, I was secretary of my secondary school’s charity committee and a member of our prom committee so I understand the responsibility of having a vital role in organising events.

If elected to a position on the Sutton Bonington Guild, what would you like to change?

– Greater interaction between societies – intersociety tournaments, fundraisers, ‘Society Swaps’, and more of that good stuff :) – More promotion of societies to people new to the sport, or those who wouldn’t think of themselves as ‘sporty’
– More competitive opportunities for ‘engage’ and beginners in all sports (i.e. two IMS netball teams, not just one) – Easier access to societies on UP Campus, and more interaction with our campus by UP reps (like with Latin & Ballroom society)

What experience do you have for the role?

– Captain of 1st XI Girls Hockey Team at school for 2 years & Head of Hockey for the whole school & Captain of 1st VII Netball at school – Player in South-West Regional Netball league, and Hampshire County League – Head Girl at school (good at organising events, communication between groups, etc.) – Heavily involved in SB Netball, as well as involved in other societies on campus (Horse Riding, Latin & Ballroom)
- Very interested in event planning, and have ample experience in event design (posters, flyers, decorations, invitations, etc.)

Anything else that you would like to share on why you should be elected.

I think it would be awesome if more people felt like they belonged to a society, including those at UP, even if it’s not something they’ve done in the past or consider themselves good at. Societies aren’t just an opportunity to do what you’re already good at, but to meet more people, try something new and even get better at it.

If elected to a position on the Sutton Bonington Guild, what would you like to change?

I'd like to ensure societies feel involved in decisions about training sessions, charity events and knowing when facilities are available. I would also like to make it easy for sports and societies to communicate with the university. I'd like more people to be involved in societies and understand what possibilities there are available. I also think that I'd like to make it easier for people to find out and be involved in societies and sports on University Park campus, as I think this is something people might be interested in.

What experience do you have for the role?

At school, I was involved in organising activities for other pupils throughout the year and also in putting on charity events, including sports tournaments. I did work experience at Great Ormond Street Hospital working in their charities and publicities office, so I have had experience of communicating with different groups so I would be able to communicate with societies and the university to ensure everything runs smoothly. This also gave me the skills to make sure charity events can take place. I also play hockey and netball on SB at the moment, which has shown me how fun and important sports and activities are.

Anything else that you would like to share on why you should be elected.

I really like living on SB and would love to be involved with how the campus is run and to help with sports and activities. I think societies are such a key part of university and would love to help them be accessible and able to run effectively throughout the year.
